Social Work History: Gladney Center for Adoption, since 2009

I work with prospective adoptive families hoping to adopt primarily infants and young children domestically. I assist them through all stages of the process including home study, profile building, counsel regarding potential matches, and walking them through contact with a birth mother and creating an individualized placement plan.

Why I love my job at Gladney: I come to work every day because I love helping find and prepare families to be the best possible parents to vulnerable children. I am honored to be a part of their journey. I also work with an incredible social workers and counselors. They teach me new things every day and keep my job exciting and fun!
